Howard, There is an empty file folder to which I return the CIA-Garrison file Jerry took. This had to be as long ago as it was stupid. At the eraliest time Jerry could have taken it the world knew it was nightmare stuff.
It will take me at least an hour to figute out where the scum could have gotten the other memos and clips and refile them or make folders for them. If this is friendship, who the hell invented enemies? HW 1/12/73
